NEW COLOURS 2020

DEKTON® SLIM

designed by COSENTINO®

Tiny Thickness + Huge Format & Performance
Presenting Dekton® Slim, the new, large format surface with an ultra-thin 4-mm thickness that offers unlimited design options and incredible ease of installation and transport.

Its lightness and reduced thickness make it the most durable, high-performance surface for bathroom and kitchen cladding, as well as all types of furniture (doors, drawers, etc.).

Transforms your home furniture with beautiful, highly resistant surfaces.
1. **Bathroom Cladding**
   Maximum resistance against humidity with minimal joints.

2. **Kitchen Cladding**
   Reduced thickness, infinite possibilities
Bathroom Cladding

Maximum resistance against humidity with the minimal joints in the lightest Dekton® format.

Ideal for bathrooms, Dekton® Slim offers cladding that is ultra-resistant to humidity and stains. A high-performing product that does not require any more maintenance beyond a damp cloth.

Its large format measuring 3,200 mm x 1,440 mm covers large surfaces, avoiding a large number of joints and in turn, dirt.

- Fewer Joints
- Greater Hygiene
- Surfaces measuring 3,200 x 1,440 mm
- Cut to measure
- Limitless customisation
- Same stain and scratch resistance as other Dekton formats
Kitchen Cladding

Reduced thickness, infinite possibilities

The ultra-thin Dekton® Slim surface, with a thickness of 4 mm, is ideal for the cladding of kitchen walls and cupboards, resulting in a harmonious blend with countertops of different thicknesses.

Dekton® Slim is scratch-, fire- and stain-resistant, just like its other formats.

Surfaces measuring 3,200 x 1,440 mm

Same stain and scratch resistance as other Dekton formats

Cut to measure

Limitless customisation

Dekton Slim is not suitable for kitchen countertops.
Transforms your home furniture with beautiful, highly resistant surfaces

Dekton® Slim creates furniture with unprecedented performance: tables that are resistant to everything and doors that neither scratch nor stain. The design possibilities are endless since it is cut to measure and easy to install.

Limitless Design

Dekton® Slim is very simple to install and can be cut with great ease. It is the ideal surface to personalise your furniture with innovative designs.

Whatever you can imagine, Dekton® Slim can do it for you.
Easy Installation

Everything is easier with Dekton® Slim

Thanks to its light format with an array of possibilities, everything just got a lot simpler. Its reduced thickness means it can be cut quickly and adjustments can be made on-site with tools for ceramic tiles. Dekton Slim is a material without internal tension, so it is not necessary to release it by cutting it. With a lightness of 10 kg/m², it is so easy to install.

It is important to read and familiarise yourself with the safety measures in order to handle construction materials.

At Cosentino we offer personalised Customer Service. Ask as many questions you like and request all the advice you need to ensure you get exactly what you want out of the new Dekton® Slim.

Packaging and Handling

Dekton Slim is sold in packages of 10 or 5 slabs. For larger projects, the packaging will be optimised in trestles, depending on the project requirements.

Ordering the mesh material is recommended, as handling is improved. This material is handled with tools for large-format transport.
