Kitchen & Bathroom
by Silestone

A product designed by Cosentino®
2020 will be remembered as a time of profound social change. Changes that we have experienced in recent years have cultivated a hyper-connected world; a more condensed yet increasingly individualistic society. At the heart of everything, is a search for the bare necessities. Senses are no longer just digital but are becoming the best tool in this new era. We are enjoying contact again, in our relationships with others and with objects. We are rediscovering authentic experiences that touch every aspect of our lives. Cities in this new reality continue to offer the latest trends, whilst striving to meet everyday demands of life. Streets are alive and make us experience colors, textures, smells. Silestone® Loft has managed to extract the essence from 5 iconic places worldwide. Unique places which offer a special kind of industrial beauty in their streets, buildings and urban areas, an essence then brought to homes through a new purely urban collection. Homes become extensions of the neighborhood, places where we are in constant contact with source materials. In this relationship, both receive and convey emotions and feelings. This guide was created with the aim of showing all the possibilities of Silestone Loft, and of encouraging you to travel with us to these unique corners of the world.
We invite you on an architectural and sensual journey to the heart of the city. LOFT will be your companion: a collection that reviews, in terms of design, the character and essence of 5 iconic places. Let’s begin the journey in England, in the bustling area of Camden (1). We will make the most of our journey through Europe and enjoy colors in the Mediterranean light: Poblenou (2). We will then leave the old continent behind and head for New York. There we will walk through Seaport (3), full of efflorescence. And then, we will go to the island of Manhattan with its bold and sophisticated Nolita (4). We will finish our chromatic and sensory journey in Detroit, with the always elegant and characteristic Corktown (5). Silestone’s 5 new colors are inspired by concrete, a material capable of instilling emotions through its textures, finishes and shades, thus creating a new relationship between people and objects. A new soulful identity has been born from an original material.
Seaport recreates a dark cement color with a worn charm. It invites you to explore different atmospheres with its hazy white shade which makes it a unique proposition. Seaport is ready to satisfy the most demanding preferences.

1. **Exposed brick wall**
   
The contrast between the exposed wall and Loft Seaport really highlight the texture of the brick.

2. **Two stories**
   
   Two stories provide attractive and visually-rich spacious areas.

3. **Exposed features**
   
   Respecting the integrity of the material is on trend. To achieve this, a great option is to use exposed features in living spaces.

4. **Marine features**
   
   The sea plays its part in the design thanks to decor accessories such as illustrations, photos, oars and anchors.

Get an **Industrial Navy look**

Seaport recreates a dark cement color with a worn charm. It invites you to explore different atmospheres with its hazy white shade which makes it a unique proposition. Seaport is ready to satisfy the most demanding preferences.
Cosy fabrics
Designer upholstery, unique prints and smoked glass are all great options for your design.

Wooden accessories and plants
Seaport combines with all kinds of wood and materials reminiscent of worn leather.

Vivid and bright colors
Seaport works perfectly with ochre and blue tones reminiscent of the sea and times of old.

Integrated kitchens
Seaport creates an intimate feeling perfect for cooking and enjoying day-to-day life with your loved ones.
Introducing the new Silestone Loft Series with HybriQ Technology®

Silestone®
HybriQ Technology®

100% Renewable energy

We are committed to the use of circular energy and sustainable products. That is why we defend the use of renewable energies.

98% Recycled water

We use 98% of recycled water in our production process, thus reducing the ecological impact.

Made with Recycled Glass & Minerals

A generation of innovative surfaces with a hybrid formula made with minerals and recycled glass.
Thanks to its remarkable characteristics, Silestone is the ideal surface choice for unlimited applications.

**Kitchen Countertops**

Silestone is the only quartz surface with a 25 year transferable warranty. It also offers a wide range of colors and textures to transform your kitchen into a unique space. Silestone can be used in a variety of applications, including countertops, flooring, cladding and backsplashes or even furniture.
“The Kitchen is the heart of the Home”
Kitchens for every style: which one is yours?

Trends and styles change all the time.
It’s time to choose which one goes best with your kitchen.

**Modern Style**

If you like functional rooms, formal simplicity, straight lines and units without handles, you should go for a modern kitchen. In these minimalistic looking kitchens, panelled appliances are common, creating a clean and uniform area.

**Avant-garde Style**

This trend is reminiscent of almost futuristic aesthetics. For ergonomic reasons, kitchens often feature curved and sinuous designs with no handles in sight. But the key factor that makes the difference in an avant-garde kitchen is its high technological performance.

**Rustic Style**

Its timeless lines are always a success in kitchen interiors. This style is characterized by units with a textured surface and ornamental handles, and worktops with a natural marble effect.

**New Rustic Style**

This style provides a very cozy atmosphere by using wooden units with softer lines than the classic rustic style. Natural textures and colors, such as shades of sand, terracotta and green, are best suited to this style.

**Nordic Style**

Wood is the most popular material in Nordic kitchens and it is almost always combined with light colors to enhance the brightness of the room. This is possible thanks to the use of units with refined straight lines, which provide warm atmospheres, especially when combined with other items with soft curves and natural lines.

**Industrial Style**

Its austere appearance calls for the use of materials that have a factory finish, such as units with metal fronts, exposed brick walls and microcement worktops. Exposed installations are a must in order to give authenticity and character to the room.
SILESTONE®

Benefits

Silestone® is made out of Natural Quartz created to provide color and texture for bath and kitchen surfaces. Thanks to its physical and chemical properties, a result of years of investigation, it guarantees maximum safety and hygiene.

Resistance to Stains

Silestone® is a non-porous surface which is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, make-up and many other daily-use products.

Resistant to Scratching

Quartz is one of the hardest minerals that exists. This makes our products very durable, with a high level of resistance to external damage.

Resistant to Impacts

Silestone® high level of resistance to impacts allows very hard objects (pots, trays, etc.) to be handled with total ease.
Feel the Mediterranean warmth

Poblenou offers a warm, smooth, shade of grey, with very subtle veins on its surface. It is the ideal tone to use in a day-to-day family atmosphere.

1 Ceiling moldings
Elements of other decor styles are combined here, creating rich contrasts.

2 Natural Elements
Poblenou integrates natural beauty into any interior design.

3 Wooden flooring and walls
Soft wood plays a key role in the design thanks to its harmonious and understated tones, perfect for reflecting natural light.
Paintings and art
Art is a safe bet to create attractive combinations.

Classic design pieces
Classic design pieces stand out and shine thanks to the warmth of Loft Poblenou.

Crafts and soft tones
Objects made from fibers and handmade fabric are perfect for this warm tone.

Living nature
Poblenou represents Mediterranean nature: feel free to combine it with plants, both decorative and aromatic.

Integrity, the Silestone® Kitchen Sink

Seamless Integration
More than 90% Quartz and 100% Innovation

Designed especially for those who want the best in their kitchen, integrating all the benefits of Silestone® into a revolutionary new product: the Integrity kitchen sink. Thanks to the "one piece" effect, it looks uniform and smooth. Countertop and sink are united from the very first steps of the design process and are perfectly combined so that there is no break between spaces.

Integrity TOP

20" x 14 1/2" x 6 7/8"

Helping to Rebuild Lives with “Homes for our Troops”

Silestone is proud to announce a three-year National Partnership with “Home For our Troops”.

The partnership will include Silestone surfacing for an estimated 90 homes, contributing both to the home’s design, as well as the Veterans’ ease of living. Cosentino joins the ranks of fellow best-in-class brands like Kohler, Whirlpool and Armstrong Flooring that also support Homes For Our Troops. Known for its strength and resilience, Silestone will help make everyday life for Veterans and their families a little easier.
Silestone® Eternal Collection

featuring Eternal Noir

The Silestone® Eternal Collection is a series of new colors inspired by some of the most desired exotic stones with a reputation for being beautiful and timeless.

Today, marble-looks are making a statement not only in the world of architecture and design with surfacing, but also in industries such as fashion and home accessories.
